/// OUR GOALS

SCUIO-IP is a service for school and university students, young graduates and adults returning to education. It helps them to reach their goals, from choosing their studies to starting their career. Its Research Institute (OSIPE) conducts surveys on student cohorts and graduate career outcomes.

/// CONTACT WITH PROFESSIONALS

career days organised throughout the year offering career fairs, debates, mock interviews, presentations in front of a professional jury...
a professional network resum.umontpellier.fr

/// OUR RESOURCES

- publications on training, entrance exams, careers or business sectors
- information on campus life (studying and everyday life)
- specialist journals
- research resources (professional directories, guides etc.)
- detailed information per course on job opportunities, positions held, employers, etc. available on the Research Institute website osipe.edu.umontpellier.fr

/// OUR TEAMS

- our agents can guide you in your search for information
- special educational psychologists can help you to choose your study or career path, or a change in direction, either in one-to-one interviews or group workshops
- the Employment Office can advise you on your CV, your covering letter, job hunting, mock interviews etc. for internships or permanent positions
