# **STUDENT GUIDE**

**2025/2026**

**Philippe Augé**

President, University of Montpellier

**Alexane Lequart**

Student Vice-President  
at University of Montpellier

## Dear Students, Welcome to University of Montpellier!

The establishment you have chosen for your studies hosts nearly 52,000 students in its research and training units (UFRs), schools, and institutes. It spans several campuses and cities in the southern France's Hérault department, including Montpellier, Béziers, and Sète, and, at the regional level, Nîmes, Mende, Perpignan, and Carcassonne.

University of Montpellier (UM) is a multidisciplinary environment that offers students the opportunity to acquire a wide range of skills aligned with the requirements of tomorrow's professions. UM offers more than 650 degrees through traditional programs, apprenticeship contracts, and professional development contracts, and enjoys outstanding graduate employment rates.

One of University of Montpellier's objectives is to educate responsible citizens who are aware of the role they have to play in society. Inheriting a long tradition of rich student life, UM is a place for living and exchange, conducive to the development of cultural and sporting activities, but also supporting solidarity, with more than 130 active associations, which I would like to warmly thank for their dedication and dynamism.

A research intensive university with 76 research structures, UM is highly rated in the Shanghai ranking, particularly in the field of Ecology, where UM ranks seventh worldwide, as well as in the Times Higher Education World University Rankings (THE) and the Leiden ranking. Our university also ranks among the top three most innovative universities in France, according to the Reuters ranking.

The UFRs, schools, institutes, and other departments at University of Montpellier have devoted considerable effort to ensure that your experience on campus and throughout your studies is as positive as possible.

This guide is designed to help you discover your campus and organize your studies as well as your cultural, athletic, and social life. Let me take this opportunity to wish you all a wonderful year at our university and, of course, success in all your endeavors.

## Dear Students,

Welcome to University of Montpellier, where history and heritage merge with student life. For nearly eight centuries, we have welcomed generations of students who have come to study and grow at our university, one of the oldest in Europe. Now, you will contribute to this great ongoing academic adventure.

On behalf of the University of Montpellier's Student Life Office (BVE), I wish you an academic year filled with discoveries and encounters. This 2025/2026 edition of our student guide, produced with the help of the University's Communications Department, will serve as your compass on this adventure. Here, you will find all the resources and contacts you need to navigate your way around with confidence.

As a support structure for students, the BVE is here to listen to you and offer advice, whether it's about your academic career or your day-to-day life at the university. Rooted in its heritage but also looking towards the future, University of Montpellier stands out for its dynamic student associations and the commitment of its elected student representatives, who are your key points of contact.

Beyond the lecture halls and classrooms, our university offers you an exceptional living environment in a city where history merges with innovation. Take advantage of the

services available to you, completely free of charge: SUAPS with more than 40 sports activities; the university libraries to feed your curiosity and knowledge; SCMPPS for health-related services; CSU for medical care; the "Handiversité" service supporting students with disabilities; tutoring to benefit from the help of your senior classmates; and SCUO-IP to guide you throughout your studies.

The student life and arts and culture offices are also key points of contact, particularly with the student centers and the (S)pace, which are places for sharing and creativity where you can meet others, relax, and get involved in cultural and artistic projects. There are even musical instruments available for you to use.

Every year, over 50,000 students attend our university, spanning seven cities: Béziers, Carcassonne, Mende, Nîmes, Perpignan, Sète, and of course, Montpellier.

University of Montpellier is a vibrant community, truly a place of learning and innovation. Let's join together to help this institution shine!

I wish you an excellent, inspiring, and successful academic year!

# STUDENT LIFE OFFICE (BVE)

## What is the "BVE"?

BVE is the Student Life Office (Bureau De Vie Etudiante), a body within the University of Montpellier managed for and by students. It currently consists of the student vice president, a student life officer, and several elected student representatives. The BVE works closely with the various teams and departments of the University, as well as with student associations.

## BVE missions

- Organize various events and activities
- Assist, advise, and support student associations and university tutoring programs
- Provide support for student projects and their funding requests (FSDIE Projects)
- Participate in committees that award social assistance (FSDIE Social)
- Take part in organizing student life venues (MDE student centers, (S)PACE)
- Organize campus activities in cooperation with the university's various departments
- Help create the university's Student Guide

## BVE projects

### • Food and hygienic product distribution on campus

In partnership with Linktree, the BVE offers distributions every other Monday at the Triolet and Richter student centers.

### • Welcome days for new students

Together with the university's cultural and institutional associations, departments, and partners, the BVE greets students at the Jardin des Plantes botanical garden every September at the start of the academic year.

### • Sports & Wellness Village

The BVE organizes the Sports & Wellness Village at the University Sports Center a few days after the welcome and orientation days. The program includes various sports activities such as bubble soccer, a fitness trail, tournaments, and more, as well as introductions to CPR, a smoothie bike, and many other activities.

### • "Circular weeks" to raise awareness about ecological transition

Each year, the BVE partners with "Ile des Possibles" to offer various DIY workshops, resource centers, and conferences on the theme of ecological transition.

### • Welcome evening for international students

The welcome evening for international students takes place every year in February to welcome new international students arriving in the second semester and help them integrate into University of Montpellier.

### • Tutor appreciation ceremonies

Every year in early June, the BVE celebrates the commitment of tutors from the University's associations and UEs (Research and Training Units, Schools, and Institutes) at the Jardin des Plantes in downtown Montpellier.

### • Association training sessions & coffee breaks

The BVE organizes training sessions for the University's student associations twice a year. These events inform associations about available resources and services and provide training on specific topics such as project management, sexual violence prevention, disability, etc.

The association coffee breaks are social evenings designed to encourage interaction between the university's

associations.

### • Arts and culture week

For an entire week, the BVE celebrates arts and culture through a varied program of events: writer's evenings, public speaking competitions, screenings, concerts, theater performances, and more. The event concludes with the Arts and Culture Village on the Triolet campus, where university associations and cultural groups offer workshops and concerts.

### • PhD coffee breaks

PhD student coffee breaks seek to combat social isolation among PhD students by offering them regular opportunities to get together in a friendly setting.

# DEMOCRATIC PROCESSES

University of Montpellier operates democratically. The university's president is elected every four years by the university community. Student representatives actively participate in this democratic process by serving on the central councils (CA and CAc) and institution councils. They are elected by the student body every two years.

## Administrative council (CA)

It comprises 36 members (24 elected), including 5 students. The council meets every month to determine the establishment's policy and budgets.

## Academic Council (CAc)

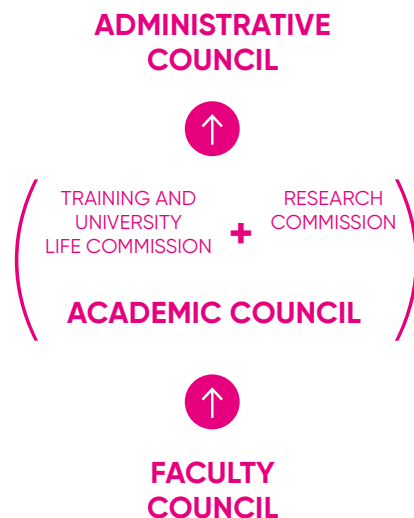

It comprises 80 elected members, including 20 students. Its role is to ensure consistency between training and research policy. It is made up of two commissions:

- **The Training and University Life Commission (CFVU)** issues opinions on exam rules (assessment methods, teaching, study, and exam regulations, schedules), the allocation of resources for training, curricula, and student life (allocation of the CVEC student and campus life fee, in particular support for associations).
- **The Research Commission (CR)** issues opinions on research budgets, laboratory operating rules, and the allocation of funds.

## Faculty Council

This is the faculty's deliberative body. It is made up of elected members and deals with issues relating to examination rules, teaching, research, and the budget.

Generally,  
motions are voted as follows:

Whatever your profile, whether you are a motivated student, a student with a disability, an apprentice or student in continuing education, an international student, a PhD student or someone seeking training, an artist or a high-level athlete, this section has some useful advice to help you succeed at UM.

# UNIVERSITY OVERVIEW

University of Montpellier has nearly 52,000 students spread across 17 faculties, schools, and training institutes.  
A total of more than 650 degrees are available at UM.

## 8 FACULTIES

- Law and Political Science
- Economics
- Education
- Medicine
- Dentistry
- Pharmacy
- Science
- Science and techniques of physical and sports activities (STAPS)

## 7 INSTITUTES

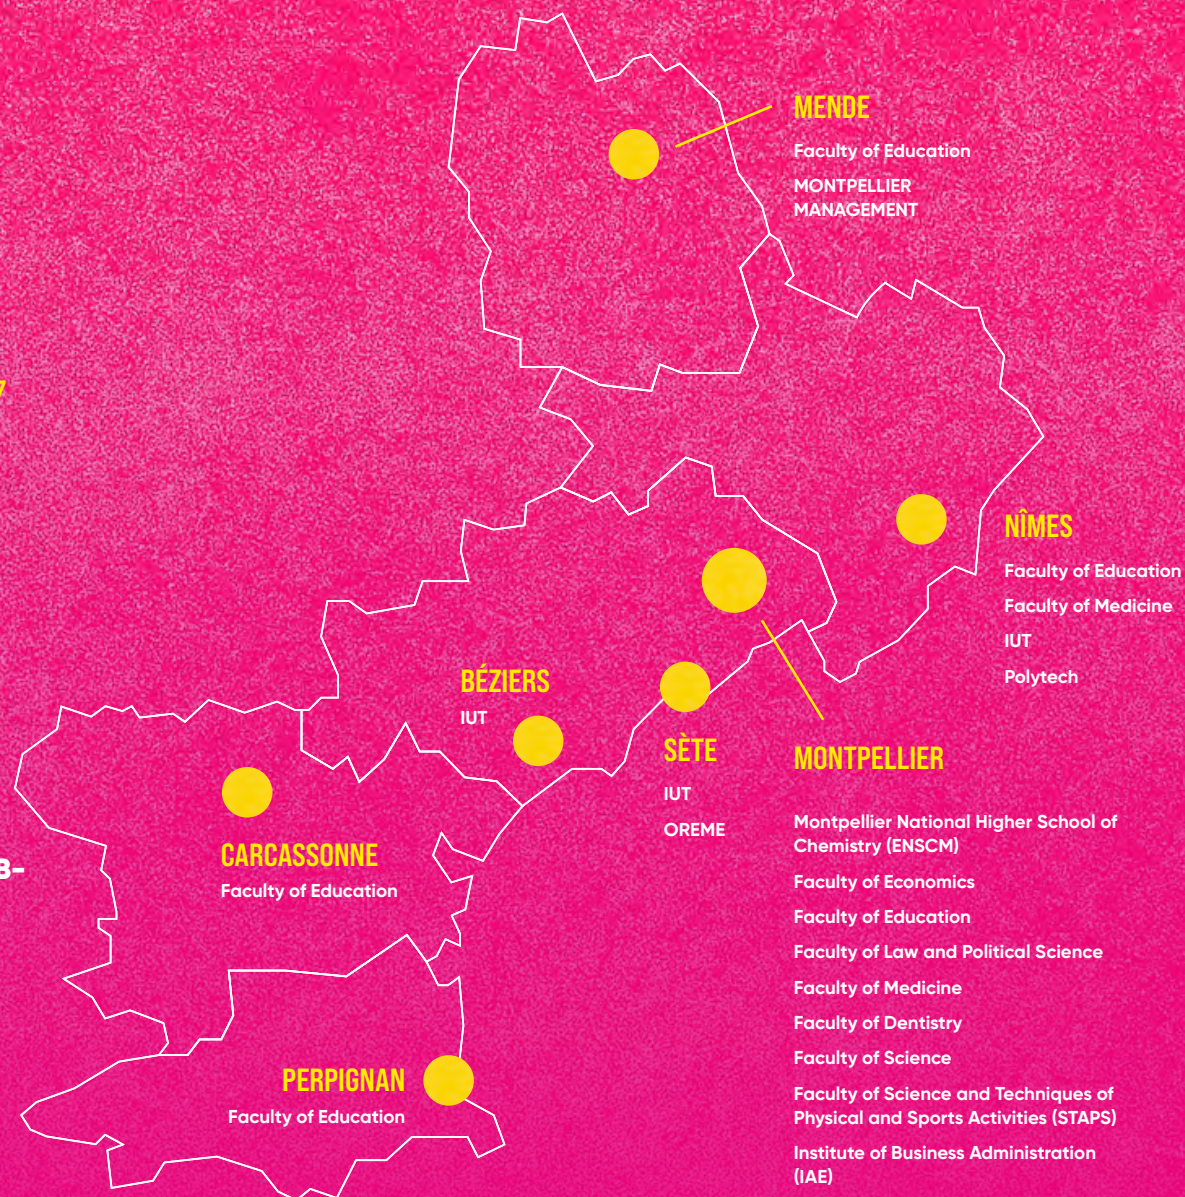

- Institute of Business Administration (IAE)
- Institute of Preparation for General Administration (IPAG)
- National Higher Institute for Teaching and Education (INSPE)
- Montpellier Management
- Béziers IUT
- Montpellier-Sète IUT
- Nîmes IUT

## 2 SCHOOLS

- Mediterranean Environmental Research Laboratory (OREME)
- Polytech Montpellier

## 1 AFFILIATED ESTABLISHMENT

- Montpellier National Higher School of Chemistry (ENSCM)

## ALSO PART OF UNIVERSITY OF MONTPELLIER:

**77 research organizations** divided into **5 groups** and **9 doctoral schools** that make up University of Montpellier's doctoral college.

# ORIENTATION IN UNFAMILIAR AREAS

Training, careers, the business world?

It's not easy to figure it all out!

Whether you are a high school or college student, apprentice, or adult returning to school, the university's central information, guidance, and career services department (SCUIO-IP) can guide you through these unfamiliar waters.

The SCUIO-IP team will help you develop your training plan, plan your career path, and successfully transition into the workforce.

With the Career Services Office (BAIP), you can get advice in individual meetings or group workshops on: CVs/resumes, cover letters, job search methods, mock interviews, and professional networking. You are also welcome to participate in university-business events.

## The SCUIO-IP department also offers:

→ **Two documentation centers** with everything you need to know about courses, competitive exams, careers, graduate employment, and campus life (notably studies and practical information).

→ **An observatory that tracks students' progress and professional placement**, providing you with insight regarding the careers of former students.

# EDUCATIONAL INNOVATIONS

The Central Support Center for Pedagogical Innovations (SCSIP) was created to initiate, assist, and support educational transformation at University of Montpellier.

## How can this help you?

The SCSIP is committed to developing new teaching formats for the university of tomorrow, fully aligned with the stakes and issues of the 21<sup>st</sup> century.

Our objective is to transform your years of study into an unforgettable learning and life experience. As experts, we provide a wide range of services designed for all those involved with teaching: professors, research-professors, schools and partner establishments, and students.

# INVOLVED STUDENTS!

In accordance with its "charter on the recognition of student involvement," UM acknowledges and values the skills of students who engage in civic activities.

## What civic activities and/or commitments entitle you to take part in the student involvement program?

- Volunteer activities within a non-profit organization (under France's law of 1901), professional activities, sports activities (see Article L 221-2 of the Sports Code), union activities (provided you hold a position of responsibility). Any activity as an elected representative on one of the establishment's councils, CNESER, CROUS, a local authority, or as a member of a student life office or student office (UFR, schools, institutes). Any civic activity recognized by the research and training unit (UFR), school, or institute.
- Commitments to the operational reserves of the national police or army, commitments as a volunteer firefighter, civic service, or volunteering in the armed forces.

## How to get your involvement recognized?

### STEP 1

#### Submitting an application

Submit your application for recognition (please check with your department and/or its website for the application schedule).

Any special study accommodations are subject to a separate application. Recognition is proposed and may be granted on a case-by-case basis.

### STEP 2

#### Validation of student involvement

At the end of the year, you submit a report for evaluation. This report (typically a report or interview) is determined by the teaching team or included in your program's assessment methods.

Student involvement is recognized in assessment methods if it qualifies for a minimum of 2 ECTS credits; otherwise, it is recognized in a supplementary certificate. Tutoring/mentoring activities that entail a temporary contract are excluded from this option.

### Contacts

✉ [dfc-accompagnement@umontpellier.fr](mailto:dfc-accompagnement@umontpellier.fr)

# TUTORING

**Are you having trouble with certain subjects? Don't panic, there's always a way to get help! Students at University of Montpellier make an effort to help their peers through a variety of tutoring programs.**

## What is tutoring?

Tutoring is a support system designed to help students succeed, providing them with support from their first to third years at UM. The volunteer tutors are enrolled in your program. They have specific training and are supervised by designated professors. Health tutoring, designed for PASS students pursuing degrees in health and medical fields, is the oldest program at UM.

## How does it work?

Tutoring sessions are free of charge, and are held weekly in small groups. Tutoring gives you the opportunity to review the fundamental concepts you need to master. Tutoring is also available to help you with your documentary research in UM libraries!

## Tutoring for students with disabilities

Specialized tutoring is also available to provide personalized support if you are a student with a disability.

### Contacts

✉ [bve@umontpellier.fr](mailto:bve@umontpellier.fr)

# WORKING STUDENTS

**Do you have a job that requires you to work at least 10 hours per week on average? University of Montpellier takes your circumstances into account and helps you succeed in your studies while working.**

Salaried employee status may be granted to any student enrolled at University of Montpellier in an initial training program preparing for a national degree (excluding work-study programs and general and advanced training in medical, pharmaceutical, and dental sciences).

**You can benefit from salaried employee status if you have a work contract for at least:**

- **10 hours per week on average**, or 40 hours per month if the contract is for less than 12 consecutive weeks
- 120 hours per school semester or 240 hours during the academic year for a work contract lasting more than 12 consecutive weeks

**All terms and conditions are formalized in the educational success contract to be signed with your department. This contract is established either for:**

- the duration of the work contract;
- the academic year;
- or for one semester only.

The contract can be terminated by mutual agreement between the parties.

The application is first reviewed by the faculty, school, or institute where the student is enrolled.

**Are you looking for a job?**

**UM recruits throughout the year** (guidance, tutoring, support for library staff, etc.).

→ Please check the UM website in the section "Working at UM."

**The Handiversité Department also recruits student workers.** Your mission? To provide support for students with disabilities from September to June: note-taking, tutoring, educational support, assistance getting around campus, exam secretary duties, etc. More than 200 paid student contracts are offered each year.

# INNOVATIVE ENTREPRENEUR STUDENTS

**"Innovative Entrepreneur" status is a program that allows eligible students to benefit from adjustments to their studies and/or exams. This status may be granted to any student enrolled in a traditional or apprenticeship program leading to a national degree at University of Montpellier, following review by the "Innovative Student" committee.**

**To qualify, you must provide proof of:**

- Enrollment in at least the third year of higher education (Bachelor's degree, BUT 3, engineering program, Master's degree, etc.);
- Your application reflecting a professional and entrepreneurial objective and presenting an innovative project related to one of the challenges of the University's "feed, care, protect" pillars.

Entrepreneurial projects may involve a personal entrepreneurial project, the promotion of intellectual property, or participation in a research and/or technology project.

In addition to making suitable accommodations for your studies, UM offers personalized support through entrepreneurial programs such as Initium, which provide specific support to early-stage entrepreneurs through mentoring, specialized training, and access to certain resources.

**Clarification regarding national "Pépité" status:**

The Innovative Entrepreneur status granted by UM complements and enhances the national student entrepreneur status offered by the "Pépité" program (student clusters for innovation, transfer, and entrepreneurship). However, this program does not automatically grant the student Innovative Entrepreneur status at University of Montpellier.

**How to obtain Innovative Entrepreneur status?**

Submit a request to your registrar's office. You will also need to submit a candidate application form. Candidates are asked to provide documents that demonstrate their connection to the entrepreneurial project.

# STUDENTS WITH DISABILITIES

Nearly 1,900 students at UM are declared as having a disability. The University's Central Preventive Medicine and Health Promotion Department (SCMPPS) and the Handiversity Department work closely together to help all students succeed in their studies. They provide you with information, assess your situation, recommend appropriate accommodations, and follow up on their implementation.

## SCMPPS missions:

- To welcome you, provide you with information, and support you medically with the help of a team of doctors certified by the Commission for the Rights and Autonomy of People with Disabilities (CDAPH), nurses, and psychologists.
- Assess your disability during a diagnostic visit in order to determine the appropriate accommodations for your studies, exams, and/or competitive examinations. Make an appointment with us at the earliest opportunity so we can evaluate your situation and set up the appropriate accommodations.

## Contact

✉ [SCSIP@umontpellier.fr](mailto:SCSIP@umontpellier.fr)

## The Handiversity Department assists you with:

- Administrative and educational procedures
- Obtaining individualized personal and material assistance: note-taking, study assistance, equipment loans, campus assistance, French sign language interpreters, Braille transcription, and more.

Please contact the Handiversity Department for more information on study accommodations.

## What is considered a disability?

According to French law, "a disability is defined as any limitation of activity or restriction of participation in society experienced by a person in their environment due to a substantial, lasting, or permanent impairment of one or more physical, sensory, mental, cognitive, or psychological functions, a multiple disability, or a disabling health condition."

Welcome to University of Montpellier, where education is open to the world! Here you will meet students of all nationalities and hear every language spoken. So why not take advantage of an international exchange program? UM offers destinations all around the world.

# STUDENTS ABROAD

## The world is yours!

- Around the world with inter-university partnership agreements (e.g., Canada, Thailand, Japan, Madagascar, etc.)
- In Europe, with the Erasmus+ study or internship program at a partner university in your department
- In Quebec, with the BCI (Interuniversity Cooperation Office) program and more than 10 partner universities

The first thing to do is to contact the international relations office at your faculty, school, or institute. Financial aid is available, so don't hesitate to ask. And above all, remember to plan ahead, because it takes time to prepare!

# APPRENTICESHIP STUDENTS

In 2023–2024, more than 4,600 students chose to pursue apprenticeships via the EnSup-LR CFA (apprentice training center), an increase of nearly 300% over 10 years. The regional Sud de France Higher Education CFA offers more than 350 degree programs: BUT (technology Bachelor's degree), Bachelor's and vocational Bachelor's degrees, Master's degree, state diploma, engineering degree, etc.

**Are you between 16 and 29 years old? By choosing apprenticeship training, you benefit from:**

- A high-level degree program
- Dual status as a student and employee
- Dual supervision from an apprenticeship supervisor and academic advisor
- Monthly salary (from 43% to 100% of the minimum wage or minimum monthly wage)
- Valuable professional experience and skills that are directly applicable in the workplace

# STUDENT ARTISTS AND HIGH-LEVEL ATHLETES

University of Montpellier strives to provide artists and high-level athletes with the resources they need to pursue their university studies. Status as a high-level athlete or artist entitles students to special arrangements for their studies and/or exams.

**To qualify for high-level athlete status, you must fulfill one of the following:**

- Be registered on the French Ministry's lists;
- Be part of the "Pôle France" program or have an agreement with a training center, or be a judge, referee, or elite sports coach;
- Meet specific criteria, which you can find on the SUAPS website.

The registration process is entirely online: you must submit your application and supporting documents on the SUAPS website. Complete applications will be reviewed by the University's high-level sports commission. If your status is approved, study accommodations will then be determined by your department.

**To qualify for artist status, you must be:**

- Enrolled in an initial training program at one of UM's 17 establishments;
- Enrolled in a cultural or artistic institution such as a conservatory, art school, theater school, dance school, or other specialized establishment;
- Demonstrate intensive artistic activity through regular participation in events (concerts, exhibitions, festivals, performances, etc.).

This support, provided by the Art & Culture Department, is designed to help you acquire new skills and knowledge to professionalize your practice. You must apply online on the UM website or directly via the Art & Culture Department website. The details of your study arrangements will then be determined by your department.

# STUDENTS IN CONTINUING EDUCATION

Are you currently employed (salaried employee, job seeker, self-employed entrepreneur, freelancer, independent contractor, student on a professional training contract) and would like to pursue a university education? University of Montpellier's continuing education department is your main point of contact.

## Guidance in choosing the best training program

The continuing education department will guide you toward the degree and training program best suited to your current situation and career plans. National degrees, university degrees, vocational qualifications, adult education diplomas (DAEU), short programs, etc. More than 650 courses are available through continuing education, work-study programs, and validation of prior learning.

For more information, contact us:

 [sfc@umontpellier.fr](mailto:sfc@umontpellier.fr)

## Helping you with financing and contracts

The continuing education department at the University of Montpellier will help you benefit from financing options such as OPCO, personal training accounts, individual quotes, etc., and will prepare the necessary documents for your training program.

Are you a work-study student on a professional training contract or undergoing professional reorientation? Applications and contracts with companies are managed directly by the continuing education department teams.

# PHD STUDENTS

Would you like to pursue a career in research? PhD degrees are research-based programs lasting between three and six years. They are the highest degree in higher education and provide professional research experience aimed at producing new knowledge.

## Enrolling in a PhD program?

A PhD is a postgraduate degree that can be pursued after obtaining a Master's degree or equivalent. With a thesis topic in mind, PhD students conduct their research under the supervision of a thesis director within a research unit. A doctoral project represents an original and unique research topic, with each student developing their own professional objectives.

Research work is presented in a thesis document and defended before a jury, which is then responsible for awarding the PhD degree.

PhD programs typically last three years with dedicated funding to complete the degree. Programs can last up to six years if research is conducted on a part-time basis. While preparing the thesis, complementary activities such as teaching, mediation, and the dissemination of scientific information are offered.

## Doctoral schools and colleges

Doctoral training within a higher education establishment is provided by a doctoral school, which offers personalized supervision to doctoral students.

Additionally, University of Montpellier has established a doctoral college that offers training to develop the cross-disciplinary skills of future PhD graduates, leads initiatives to promote professional placement, and promotes PhD programs and careers for PhD graduates.

# WHAT ABOUT DIGITAL? RESOURCES AND GOOD PRACTICES

UM provides students with a wide range of digital resources and services to support them throughout their studies. These services are generally accessible from the digital work environment (ENT).

## First login

As soon as your administrative registration is confirmed by your registrar's office, you will receive a message at the e-mail address you provided during registration. The message contains your computer account username (firstname.lastname@etu.umontpellier.fr) and a link to activate it.

## Any questions?

Please check out the tutorial on the digital resources website, in the Resources section.

## Digital work environment (ENT)

<https://ent.umontpellier.fr>

This is where you will find all the digital services available to you, such as:

- Your UM e-mail account: used by your professors, the registrar's office, and educational administrative departments;
- Your record: to download your academic transcript and view your grades;
- Moodle: the online teaching platform with access to educational resources;
- Your digital transcript;
- Teams & Office 365: Microsoft Office tools are available free of charge (Word, Excel, PowerPoint, etc.) and can be installed on up to 5 PCs or Macs, 5 tablets, or 5 smartphones.

With your UM account, you can log in to Copilot, Microsoft's generative artificial intelligence tool (<https://copilot.microsoft.com/>), for secure use with data protection.

## Want to know more?

You can read the starter guide with essential services for a successful start to the academic year

[numerique.umontpellier.fr/nouvel-arrivant](https://numerique.umontpellier.fr/nouvel-arrivant)

You can also find all our digital tools on the website dedicated to digital technology, under the "Digital Offering" section. Don't forget to select the "Students" profile at the top of the page:

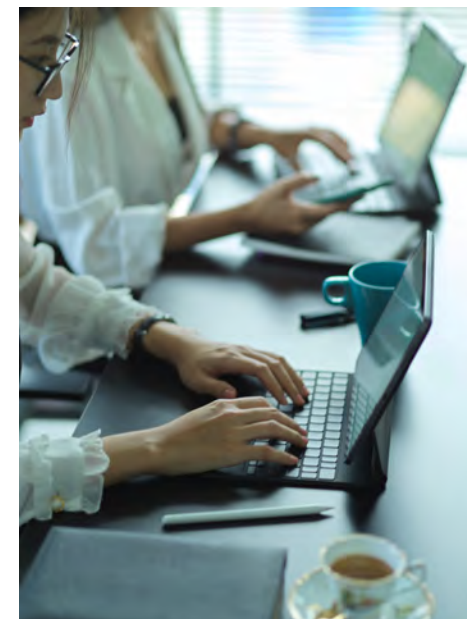

[numerique.umontpellier.fr/offre-numerique](https://numerique.umontpellier.fr/offre-numerique)

## Free Wi-Fi on all campuses

Two networks are available on the various University of Montpellier sites: "eduroam" and "UM-net". It is generally best to use the secure "eduroam" network.

## Practical information on the website for digital resources

[numerique.umontpellier.fr/wifi](https://numerique.umontpellier.fr/wifi)

## Best practices

### A few tips for your digital security:

- Never share your username and password! If you forget your password, click on the "Login problems" link on the ENT homepage.
- Update your devices (computer, smartphone, etc.) and software regularly. Only download updates from official websites.
- Make regular backups.
- Beware of suspicious e-mail! If you have any doubts, do not click on attachments or links and forward the e-mail to: [abuse@umontpellier.fr](mailto:abuse@umontpellier.fr)

### You will find more information here:

<https://numerique.umontpellier.fr/securite-informatique/>

Student life is all about  
cultivating your mind,  
going out, socializing,  
learning, and relaxing.

UM offers a wide range of  
services and places where  
you can enrich your life  
and enjoy yourself before  
and after class.

# STUDENT LIFE SERVICES AND FACILITIES

The Student Life Department helps make the place where you study a place where you can live and thrive. The Student Centers (MDE) located on the Triolet and Richter campuses, as well as the (S)pace, are vital hubs for creativity and socializing on campus. These spaces welcome events and workshops throughout the year for all UM students, regardless of their campus.

Working closely with the Student Life Office (BVE), the Student Life Department (SVE) supports student associations in their activities and projects, particularly through the Student Initiative Solidarity and Development Fund (FSDIE). In conjunction with social service assistants from the CROUS organization, it can also provide support if you are experiencing difficulties with social issues. The Student Life Department also runs the three main social areas for students.

## (S)pace

Located on the Triolet campus, (S)pace is a place to eat, relax, work, or chat, indoors or outside on the patio. It hosts workshops, exhibitions, and events. The first floor houses part of the student life department, including the social and family economics advisor's office, student life office, Crous social workers' office, local mission office, and student association offices.

### Contacts

✉ [space@umontpellier.fr](mailto:space@umontpellier.fr)

## Student Center MDE Triolet

### Françoise Barré-Sinoussi

On the Triolet campus, this student center offers activities throughout the year:

- Concerts, theater performances, shows, conferences, free movie screenings on Mondays (once a month), debates
- Association events
- Workshops run by the Student Life Department or other associations (sewing workshops, theater (TAUST), orchestra (OSEM), etc.)
- Board games and role-playing games with the Licornes association
- Food distribution every other Monday By the Linkee association, in cooperation with the Student Life Office.

### MDE Françoise Barré-Sinoussi also provides:

- 2 music rooms with musical instruments
- Table football
- A large area for working or relaxing between classes

### Contact

#### MDE Triolet

✉ [mde-triolet@umontpellier.fr](mailto:mde-triolet@umontpellier.fr)

#### MDE Richter

✉ [mde-richter@umontpellier.fr](mailto:mde-richter@umontpellier.fr)

#### CROUS

✉ [service.social@crous-montpellier.fr](mailto:service.social@crous-montpellier.fr)

## Student Center MDE Aimé Schoenig Richter Campus

Located on the Richter campus, this student center has a 250-seat auditorium and hosts:

- Movie screenings two Wednesdays per month
- Concerts, theater performances, conferences, etc.
- Workshops (sewing, public speaking, etc.)

### The Richter student center also features:

- An exhibition hall with a piano available for anyone to use
- A music room and recording studio
- A multipurpose meeting room
- A gym and a dance studio (managed by SUAPS)

The Richter student center also houses an annex of the preventive medicine service and the office of the CROUS social services assistant, and organizes food distribution every other Monday.

# UNIVERSITY LIBRARIES

Gone are the days of university libraries filled with dusty books. Come visit one of the UM's 10 libraries! There is always an open library where you can study, relax, or fill your mind surrounded by a wealth of knowledge. You'll be able to explore the unlimited expanses of knowledge in a connected and relaxed environment.

## Contacts

✉ [scd-info@umontpellier.fr](mailto:scd-info@umontpellier.fr)  
☎ +33 (0)4 34 43 36 81  
📷 [bu\\_montpellier](#)

## What are the university libraries?

- The "bibliothèques universitaires", commonly referred to as "BUs", are well-equipped and welcoming workspaces for individual or group study, open weekdays until 10:30 p.m. and all day Saturday and Sunday.
- Resource centers where you can access paper and electronic documentation on all topics, either on site or remotely via your digital workspace, in the "Libraries" tab. Your student card gives you access to all university libraries at UM and Paul Valéry University of Montpellier.
- Places for culture and relaxation where you can discover exhibitions, read newspapers, novels, or comics, watch DVDs, attend meetings, and borrow headphones, tablets, and PCs.
- Service hubs where you can take part in information literacy training, learn a foreign language, find out about careers, make photocopies or print documents.
- An app you can download on your smartphone to reserve study rooms or video booths easily, find out where there is space available, check your loans, ask a librarian a question, and more.

## Application QR code

### Hint:

Your virtual card gives you access to all services, even if you forget your student card!

# ART AND CULTURE

Would you like to attend a workshop, take part in an outing, or set up a cultural project? The Art & Culture Department offers a varied program at the university's various sites to promote artistic activities and initiatives. There's life after class at University of Montpellier!

## Things to see and do...

- Artistic workshops: music, visual arts, dance, photography, video, etc.
- Cultural events, exhibitions, shows, conferences, etc.
- Trips to the theater, opera, museums, etc.
- On-campus artist residencies
- Support for your projects and cultural initiatives
- "Open Badges" to recognize your artistic skills

## Complete program and registration on our site:

[art.edu.umontpellier.fr](https://art.edu.umontpellier.fr)

## What is YOOT?

- An online ticket office with extremely discounted prices, offering tickets to shows and concerts starting at 3€ and movie tickets from 3.90€
- A 7€ gift voucher to be used in bookshops
- A range of cultural outings with over 600 events per year from 40 partners
- A community where you can learn, discover, and share opinions, tips, and experiences

Membership only costs 9€ and is valid through August 31, 2026.

Make sure you follow the program on Instagram to find out about all the great deals: @yootmontpellier or go to the website: [yoot.fr](https://yoot.fr)

# PROMOTING SCIENTIFIC CULTURE

Are you curious about science? University of Montpellier is a place where knowledge is produced and shared, accessible to all students! Scientific culture helps us better understand the world and stimulates critical thinking. We therefore help coordinate dialogue between science and society through a range of events open to all, held throughout the year.

## Our missions:

- Share scientific knowledge in collaboration with researchers, teachers, doctoral students, students, and associations.
- Implement innovative and engaging scientific culture initiatives for all types of audiences.
- Promote careers in research.
- Train students in scientific mediation.

## Contacts

**Scientific Culture Department**

[www.cs.umontpellier.fr](https://www.cs.umontpellier.fr)  
ecrandesavoirs

**What is this "bidule" thing?** (online project)

Discover a new approach to research, from biology to physics, health, and technology. The "bidule" (which translates to "thing"), decodes science with humor and creativity in videos and drawings!

[@le.bidule.science](https://www.instagram.com/le.bidule.science)

**Science enthusiasts: head over to the Science Bar!** (from January to June)

The complete opposite of a formal conference, the Science Bar invites researchers, experts, and the general public to discuss various current scientific and social topics (free admission).

## The Science Festival

(October 3–13, 2025)

UM coordinates the Science Festival on a territory-wide scale and organizes a bustling Science Village at the Faculty of Education, which is open to all (free admission).

<https://www.fetedelascience.fr/>

**"Sud de Sciences", the science film festival** (December 2–7, 2025)

This festival offers you a unique "science and cinema" experience with documentary screenings followed by discussions with researchers in the Montpellier Métropole's multimedia libraries (free admission).

<https://suddesciences.edu.umontpellier.fr/>

# UNIQUE HERITAGE

University of Montpellier's history, with its wealth of collections from centuries of teaching and research, began in the 13<sup>th</sup> century and continues today. Discover its buildings and collections: they are your heritage too!

## Astonishing collections!

Stroll through the Botanical Garden ("Jardin des Plantes"), wander among the works of art on the Triolet and Richter campuses, admire the architectural treasures of the oldest still-active medical and law schools in the Western world... And why not visit, on your own or as part of an organized tour, the prestigious collections preserved at several UM sites? You'll have plenty to choose from, whether you're interested in botany, ethnology, paleontology, zoology, mineralogy, furniture, art objects, or scientific instruments!

### Contacts

## Faculty of Medicine Renovation

Extensive work being carried out on the historic Faculty of Medicine building means that the anatomy conservatory is currently inaccessible. No need to panic! You can still see several iconic anatomical specimens in the Delmas-Orfila-Rouvière room.

# MOVING

AT UM, the University Physical Activity and Sports Department (SUAPS) offers 45 sports activities in Montpellier and at other locations.

# SPORTS FOR EVERYONE!

**Amateur? Beginner? Experienced athlete? Competitor? Student with a disability? Regardless of who you are, there is sure to be a sport for you at UM with the University Physical and Sports Activities Department (SUAPS).**

**SUAPS offers around 40 sports activities in Montpellier, free of charge and with many options:**

- **Team sports:** basketball, soccer, futsal, handball, rugby, volleyball, ultimate frisbee
- **Combat sports:** boxing, French boxing, judo, karate, capoeira, kickboxing, Thai boxing
- **Physical training and gentle exercise:** fitness, gymnastics, weight training, yoga, step aerobics, Pilates, physical conditioning, muscle strengthening, cross-training
- **Dance:** modern jazz, rock 'n' roll, salsa, Zumba, neo-classical, Lindy hop, solo jazz, street jazz, Latin, bachata, contemporary, cardio jive
- **Water sports:** swimming, lifesaving
- **Racquet sports:** badminton, tennis, table tennis, padel
- **Other sports:** track and field, rock climbing

**And for those who are really motivated, SUAPS also offers outdoor activities, introductory diving lessons, catamaran sailing, rowing, and more.**

## Is it far away?

Activities take place in Montpellier and nearby towns that are accessible by public transportation. With the SUAPS "SPOC" program, you can find a place to practice with just a few clicks. SUAPS is also present at the University's satellite sites in Nîmes, Mende, Sète, Béziers, Carcassonne, and Perpignan.

## No excuse not to participate!

With nearly 440 hours per week in Montpellier spread over nearly 240 time slots, it's easy to combine studies, socializing, and sports.

## Earn points towards your GPA

Several University of Montpellier schools offer you the opportunity to incorporate sports into your academic program. Make sure to check that your chosen activity is compatible with your schedule. The sports program consists of 10 consecutive sessions over one semester.

## What about students with disabilities?

Whenever possible, SUAPS will find a solution so that you can participate in the activities of your choice.

**See the  
program**

### How do I sign up?

You can sign up online at any time throughout the year!  
All you have to do is:

- 1 →** Log in to your ENT digital space and click on "Suaps Pre-registration."  
A registration form will be sent automatically to your student e-mail address.
- 2 →** Complete the form and send it to SUAPS.
- 3 →** Once your registration is confirmed, you will receive your personalized digital SUAPS card.

**The SUAPS office is located on the  
Faculty of Pharmacy campus.  
Opening hours:**

- Monday to Thursday from 7:30 a.m. to 5:00 p.m. (presence)
- Friday from 7:30 a.m. to 12:30 p.m.

# STAY ING HEAL THY

You can take care of yourself for free all year round with the Central Preventive Medicine and Health Promotion Department (SCMPPS) and the University Health Center.

# TO YOUR HEALTH!

The mission of the healthcare professionals at the Central Preventive Medicine and Health Promotion Service (SCMPPS) is to welcome you, listen to you, and accompany you free of charge and in complete confidentiality.

Because feeling good and being in good health is a real factor in success, SCMPPS offers you:

- Preventive visits with a nurse or doctor:

Discussing your overall health (physical, mental, social, etc.).  
Vaccination status, issuing medical certificates, etc. By appointment.

- Specialized appointments: psychology, tobacco addiction treatment, nutrition, gynecology.
- Prevention initiatives ("À l'UM ta santé" – your health at UM) and screening campaigns run by professionals and student health representatives (ERS).
- You'll find a "Prév-Box" near your preventive medicine center, which gives you access to sanitary products, condoms, and breathalyzers at any time.

**Information for your health?  
Facilities and resources?**

### → Faculty of Medicine – Nîmes site

+33 (0)4 66 02 81 96

### → Nîmes IUT

+33 (0)4 66 02 81 96

## Collective prevention initiatives

Throughout the academic year, the preventive medicine department and student health representatives (ERS) offer health prevention and screening actions on various topics, such as:

- Nutrition (cooking workshops, booths, tastings, etc.)
- Mental health (sophrology workshops via video, time management, stress management, etc.)
- Sexual health (consent, contraception, STIs/STDs, etc.)
- Addictions
- Sleep
- Health screening days (oral health, hearing disorders, breast cancer, etc.)

The main events in the "À l'UM ta Santé" program take place in October/November and February/March.

## Student health representatives (ERS)

Providing support on campus and on social media, student health representatives (ERS) are here to talk to you and refer you to healthcare professionals when needed.

You will be kept informed throughout the year via your university e-mail and the @[ersumontpellier](https://www.instagram.com/ersumontpellier) Instagram account about the activities we offer, both in-person and remotely. Don't hesitate to sign up, it's free!

## Resources?

Check out the Guide "What to do when things aren't going well," (Que faire quand ça ne va pas ?) produced by the Student Health Representatives.

Video by Rouages "Encouraging students to reflect on their health behaviors."

# UNIVERSITY HEALTH CENTER

The Montpellier University Health Center (CSU, Centre de Soins) offers healthcare services and treatment plans tailored to the needs of students in Montpellier.

The University Health Center is an inter-establishment program that allows you to:

- Make appointments for general medical consultations, gynecology, psychiatry, physical therapy, and psychological support.
- Benefit from 100% coverage (no upfront costs upon presentation of your student card, health insurance card, and complementary health insurance certificate).
- Get help with administrative procedures related to your health, such as entitlement to benefits, complementary health insurance, etc..

A general practitioner at the center also performs medical abortions.

The University Health Center can also be considered as your primary care physician for the duration of your studies.

## REMINDER:

The university health center practices full third-party payment.

To benefit from this service, you must present:

- Your student card (or certificate of enrollment)
- Your French "Vitale" health insurance card or, depending on your situation, your provisional Ameli certificate
- Proof of French supplementary health insurance

If you cannot present a Vitale card and/or your mutual insurance certificate, you can still choose to pay for your visit.

## Opening hours:

Monday to Friday, 9:30 a.m. to 2:00 p.m. and 3:00 p.m. to 6:30 p.m.

By appointment only:

☎ **+33 (0)4 11 28 19 79**

HELPING EACH OTHER

# SOCIAL ASSISTANCE

Are you experiencing personal, family, or financial difficulties that are affecting your studies? Various forms of assistance may be available to you depending on your situation and needs. Don't hesitate to contact the CROUS social services department and the Social and Family Economics Advisor (CESF) at the UM Student Life Department.

## Temporary emergency assistance

The CESF advisor at the Student Life Department works in conjunction with the CROUS social services department to support students experiencing difficulties. You can apply for temporary emergency assistance through the University of Montpellier's Student Initiative Solidarity and Development Fund (FSDIE) and/or specific temporary assistance (ASAP) from the CROUS.

The FSDIE social fund is financed by part of the CVEC (student and campus contribution) fee paid by students when they enroll at UM. This assistance is intended for students in serious financial difficulty who are in good standing and up to date with their CVEC payment.

## Contacts

✉ [aide-sociale-etu@umontpellier.fr](mailto:aide-sociale-etu@umontpellier.fr)  
✉ [service.social@crous-montpellier.fr](mailto:service.social@crous-montpellier.fr)

## Food distribution

Food distribution is offered every Monday by Linkee, in partnership with the University of Montpellier Student Life Office. This service is free for everyone, without any restrictions! Distribution is organized either at the Françoise Barré-Sinoussi Student Center on the Triolet campus or at the Aimé Schoenig Student Center on the Richter campus.

Would you like to sign up? Scan the QR code and follow the information provided by the Student Life Office via e-mail or Instagram to find out the sign-up dates for each distribution!

## Other assistance

"Relax": a solidarity initiative to combat period poverty with sanitary bags containing hygiene products available on all UM campuses.

Computer loans: university libraries can lend you a laptop during the academic year so you can study under the best possible conditions.

# CROUS

The Regional Center for University and School Works (CROUS) of Montpellier – Occitanie is dedicated to empowering students from France and abroad to succeed by improving their living and working conditions and assisting them in their day-to-day lives.

## Contacts

🌐 [crous-montpellier.fr](https://crous-montpellier.fr)

The Montpellier-Occitanie CROUS service covers the five administrative departments of the Montpellier Academic district. It is mainly present in three major cities: Montpellier, Nîmes, and Perpignan.

**Its missions revolve around five main priorities:**

- Financial aid: scholarships based on social criteria, specific emergency aid, mobility assistance, etc.
- Social support: a network of social service assistants available to listen to you at your place of study
- Housing: 10,300 affordable rooms and studios, as well as a private rental listing portal: locaviz.fr
- Restaurant services: six university restaurants and 21 cafeterias  
Cost: 1€ for scholarship recipients / 3.30€ for non-scholarship recipients for meals at our cafeterias and university restaurants (called "Resto'U"). Affordable prices thanks to the student's Izly account.
- Culture and campus life: Yoot program, funding for student projects, spaces dedicated to student creations, artistic workshops and competitions, etc.

# UM IS COMMITTED!

University of Montpellier is committed to promoting diversity and fighting all forms of discrimination. UM offers awareness-raising, prevention, and training initiatives for all its students.

## Fighting against LGBT+phobia

48% of those in the LGBT+ community in France aged between 18 and 24 have been victims of harassment within the last five years. To combat discrimination based on sexual orientation and gender identity, UM organizes an annual week dedicated to fighting LGBT+phobia and participates in the Montpellier Pride march. UM was also the first university in France to sign the "L'Autre Cercle" LGBT charter.

## Fighting against racism and anti-Semitism

Consistent with its core values, UM is fully committed to combating racism and anti-Semitism. The university has appointed a Racism and Anti-Semitism officer who coordinates various initiatives, such as the week-long campaign against racism and anti-Semitism held at the end of March. UM is committed to making its campuses places of kindness, where origin, appearance, and beliefs are not criteria for discrimination, and where everyone is treated equally.

Discrimination can take many forms. It can be linked to gender identity, origin, appearance, religion, or sexual orientation. Perpetrators are punishable by disciplinary and legal action. Whether you are a witness or a victim, UM's teams are here to support you in complete confidentiality.

### Contacts

To report any act of violence or discrimination:

✉ [vpse@umontpellier.fr](mailto:vpse@umontpellier.fr)  
✉ [qvt-signalement@umontpellier.fr](mailto:qvt-signalement@umontpellier.fr)

## Secularism

Since it was founded, UM has been committed to defending the values of the French Republic. The establishment's Secularism Representative ensures that the principle of religious neutrality is respected, and supervises various actions, particularly during Secularism Week. The representative's role is to answer questions, step in to mediate in case of problematic situations, and travel to organize information sessions and training.

### Contacts

✉ [referent-laicite@umontpellier.fr](mailto:referent-laicite@umontpellier.fr)

For many years, University of Montpellier has been committed to professional equality and combating violence against women, implementing numerous actions outlined in its plan for gender equality.

The action program to promote gender equality reaches a high point in March with the event "Donner des Elles à l'UM" (Empowering Women at UM). Throughout the year, the Gender Equality Office of the Quality of Life at Work Department organizes events, workshops, and meetings to discuss women's professional lives and help support them.

## Are you a victim or witness of sexual or sexist violence?

University of Montpellier's listening team is here to help you, take your report, and support you in complete confidentiality. The team comprises specifically trained advisors who can help you put a stop to this type of abusive behavior. All public service employees who receive a complaint are bound by professional secrecy.

## What is the purpose of filing a report?

An internal report form is available on the UM website for both victims and witnesses. This form gives you a way to describe what you experienced or witnessed. It is particularly useful for establishing the facts and allows you to keep a record in case you need time to think before taking action.

# SPECIFIC GUIDE ON SEXUAL OR SEXIST VIOLENCE

UM has developed a specific guide to support victims of gender-based and sexual violence, so that they feel listened to, respected, and guided. The guide is also aimed at their friends and family and the entire university community, so that everyone is made aware that the University is a place where equality is an inalienable principle and that such behavior is not tolerated in any way.

You can find this guide on the University website.
