A. General Information

Brief Description of Institution

Created in 2015 through the merger of Universities Montpellier 1 and 2, the University of Montpellier (UM) draws from the excellence and synergy of these two institutions. Consequently, it rekindles the multidisciplinary ambition of the first university established in Montpellier in 1289, a secular and international university.

For eight centuries, renowned scholars and scientists, from Rabelais and Curie, to Renaudot, Chaptal and Grothendieck, have shaped this open university, closely tied to the life of the city and committed to the key challenges of its time.

Today, the University of Montpellier brings together an extensive community of knowledge, from sciences, technical arts, medicine and environmental sciences, to educational sciences, economics, law and political science.

RESEARCH GEARED TOWARDS THE NEEDS OF THE 21st CENTURY SOCIETY

Acknowledged in worldwide university rankings (Shanghai Academic Ranking of World Universities, QS ranking, THE), University of Montpellier is internationally recognised for its expertise in many scientific fields such as health-biology, agro-environmental science, chemistry, information and communication technologies and science, and more.

It coordinates 5 Laboratories of Excellence and 7 Equipment of Excellence projects.

From space exploration and robotics, to eco-engineering or chronic diseases, the University researchers aim to provide innovative responses for mankind and the environment around us.

AN ENVIRONMENT CONDUCIVE TO WORLD-CLASS RESEARCH

UM provides its researchers with the required technological platforms and facilities for cutting-edge research (BioCampus, CEMIPai, CR2I...). For example, it is equipped with a University Space Centre (USC) and an integrated human movement studies facility, Euromov. It works in partnership with the Montpellier CHRU (Regional University Hospital Centre), which ranks 6th in France, and with the Nîmes CHRU as well as with a myriad of research institutions represented in Montpellier: CNRS, INSERM, INRA, CIRAD, IRD, INRIA, IRSTEA, CNES, CEA, IFREMER...

PRIORITY GOES TO GENERATING VALUE

UM maintains strong links with state-of-the-art industries established in the region, especially in the biomedical and new technology sectors (Horiba, IBM, Sanofi...). Joint-research stakeholders have access to many of the UM's laboratories. Montpellier enjoys an ecosystem conducive to technology transfer that comprises 5 competitiveness clusters, a high-tech park and a business incubator (Montpellier Agglomeration Business Innovation Centre, BIC), ranked in the world's top 5. UM also partners with the regional agency in charge of value generating (SATT AxLR, a technology transfer acceleration company for innovative projects derived from academic research).

A WIDE RANGE OF TRAINING PROGRAMMES

A multidisciplinary university, University of Montpellier is made up of 17 schools organised into two main complementary fields of study. It offers students an opportunity to train in multiple areas in order to meet the needs of tomorrow's demanding careers, combining robotics/engineering and health, economics and environment, law and information technologies, and more. UM's strategy revolves around inter-disciplinary and multi-skill training programmes.

A UNIVERSITY CLOSELY TIED TO ITS REGION

The University of Montpellier is a highly-valued stakeholder in the Region, with over 4,500 members of staff, 43,000 students and a budget close to 400 million euros. UM plays an essential role in the development of its region. In addition to its economic impact, UM is deeply committed to disseminating academic, scientific and cultural knowledge and to contributing to the international recognition of the city.

A STRONG POSITION AT THE NATIONAL LEVEL

Ranked 6th top national university in France according to size and budget,

UM is ideally located in the South of France. It benefits from great exposure and strives to increase its attractiveness by promoting specific funding mechanisms such as programmes designed for post-doctoral students.

Bernard Reichen - Montpellier Méditerranée Métropole

AN INTERNATIONALLY ORIENTED UNIVERSITY

For a period of study abroad, thousands of students choose Montpellier as their destination. Yearly, the University welcomes more than 500 foreign students representing around 130 nationalities. Its global network covers all 5 continents via partnerships that were successfully created and developed encompassing 573 partner universities and higher education institutes in some 89 countries.

These agreements encourage mobility at all levels: for students, professor-researchers and other members of staff. Just like Montpellier, which is an open, cosmopolitan city, UM contributes to intercultural exchanges and knowledge transfer.
